COLD ASS ICE is a catchy DJ duo that found love and artistic harmony in October 2021. Sharing a strong passion for trance music, they quickly turned their shared love into a powerful musical journey, blending the bouncy energy of trance and hard trance with a special reverence for the trance era of the 90s.

Digging into old Trance and Hard Trance Vinyls showcases their deep appreciation for the genre's heyday and has characterised the sound of the two over the recent years. For the past two years, they've been resident DJs at the renowned club Arche*Ahoi in Innsbruck, where they've made a significant impact on the local music scene which already earned them a loyal following because of their energetic sets and dynamic stage presence.

Since December, they've been hosting an exciting series of events called Trance Parade, aimed at bringing their favourite genre to a wider audience. COLD ASS ICE have already graced the stages of several festivals and played at some of Germany's most renowned clubs, including AMP Münster, Waagenbau Hamburg, Bahnwärter Thiel in Munich and in various other venues in Germany. In December, they began producing their own tracks, further spreading their love of trance music and pushing the boundaries of their creative expression. With their boundless energy, passion and dedication, COLD ASS ICE continue to create unforgettable sets.
